Adam Keller

UI/UX Developer

SUMMARY

I am a UI/UX Developer working intently to make a positive impact on this industry. I am able to build meaningful sites for clients, based on my understanding of the dimension and strategy behind development and design.

EXPERIENCE

Clubessential

FRONT-END DEVELOPER

September 2015 - Current

- Tested code in multiple browsers to ensure cross-browser compatibility
- Consulted clients & co-workers on best practices and code standards
- Used responsive web frameworks to consistently develop product deliverables
- Interacted with account managers and quality assurance departments to ensure that client deadlines were met
- Outlined and proposed process changes to management, which ultimately increased the velocity and efficiency of the design/development team

Global Cloud

UI/UX DESIGNER/DEVELOPER

March 2014 - August 2015

- Established UX design as the first stage of all web application developments, instituting a user-centered design approach
- Created mock-ups for clients to ensure quality control and client satisfaction before project development phase
- Researched industry trends and websites to provide innovative, polished designs
- Designed and programmed websites for small to medium sized businesses, utilizing HTML5, CSS3, Sass and JQuery

Mediaura

WEB DESIGNER

July 2013 - November 2013

- Assisted and maintained sites by updating graphics, links and content for clients
